Biography of Speaker

Dr. Carlo Di Maio

After military service, Dr. Carlo Di Maio finished the study of human medicine in Essen. Afterwards, he pursued his doctoral degree in scientific research. At that time he worked as a doctor in the Accident and Emergency Department in Mülheim Hospital.

In 1998, Dr. Carlo Di Maio moved to the Orthopedics Department of the Bethesda-hospital. In 1999, he was promoted as a senior physician to the accident surgery with the main focus on endo-prosthetics of the hip and knee joints. Computer-assisted procedures had been used intensively at that period of time. Subsequently, Dr. Di Maio had then become the department manager of Spinal Disorders. Conservative as well as surgical therapy could be implemented under their service.

Since 2002 he has been working as a part-time associate with Dr. Swart. Dr. Di Maio also acquired different diploma such as diploma in acupuncture (medical chamber of North Rhine), trigger point medicine (IMTT), Dornhock pain therapist, shockwave therapist, Chirotherapist, and physical therapist. Moreover, he developed his own therapeutic techniques with the use of targeted shock waves instead of acupuncture needles. In March 2011 he successfully completed the training as a medical osteopath in Munich.

Since May 2011 he has been in charge of the advanced training courses for shockwave therapy for the company Storz at the University of Cologne.
