Quota : 15-20 participants

(HTSG members with priority; drawing lots in case of over-subscription)

Introduction of Speaker

Dr. Andrew Wai completed his residency and radiology fellowship training at Queen Elizabeth Hospital. Then he completed his musculoskeletal research fellowship at Thomas Jefferson University (USA) and specialized in musculoskeletal imaging & intervention. Dr. Wai has also extensive subspecialty training in cardiovascular imaging, breast imaging, musculoskeletal imaging, oncological imaging and interventional radiology. Dr. Wai has worked as a consultant radiologist in Union Hospital and a number of local imaging centres. While active in all aspects of cardiovascular and musculoskeletal radiology, he is also passionate about teaching radiology knowledge to fellow clinicians and has delivered more than 80 invited lectures in latest advances in radiology. He also performed multiple live demonstrations on percutaneous image-guided interventions in musculoskeletal, sports and pain medicine.

Program Content

Topic:

Radiological Imaging on Upper limb - A sonographic approach with MRI and CT correlation.

Format:

Lectures and live demonstrations.

Hands-on stations for practice.
