### Update of Paediatric Hydrotherapy Practice [WEBINAR FORMAT]

Jointly Organized by:  
Aquatic Physiotherapy Work Group, HKPA and Heep Hong Society

#### Webinar Details:

There are well-established paediatric hydrotherapy services in Hong Kong. Children and adolescents with special education needs (SEN) are benefited most from these services. Heep Hong Society (HHS) should be one of the pioneers in this area.

It is grateful that Heep Hong Society and APTWG of HKPA collaborate with each other and develop such an integrative webinar introducing the development of paediatric hydrotherapy services in settings of non-governmental organizations (NGOs) Hong Kong and highlighting the therapeutic effects and common approaches employed in the clinical practice.

There will be an interactive open forum allowing local clinicians to share their clinical experiences and the special consideration of resuming hydrotherapy services during the post-pandemic era.
