

Peripheral Magnetic Stimulation: Principles & Therapeutic Applications

HKPA is delighted to co-organize with **Healthlink Holdings Ltd.** and **Medical Revolution** to organize a **FREE** online course (Sponsored Event) about Principles and Therapeutic Applications in *Peripheral Magnetic Stimulation*

Peripheral magnetic stimulation shows considerable potential the management of *acute and chronic pain*, *tissue regeneration*, and *functional improvement*. Its *versatility* and *hands-off approach* enable clinicians to treat more patients efficiently without requiring the patient to undress.

In this webinar, we will explore how this technology works and discuss the *key benefits* it can offer both physiotherapists and patients.

Alberto Sánchez Sierra
PhD, physiotherapist, researcher,
and university professor

Event Details

22 July 2026 (Wed)

8:00 – 9:30 pm (HKT)

ZOOM (Capacity: 1000)

2 CPD Points (AC1260035)

Target: Physiotherapists and
Physiotherapy Students

** Priority will be given to HKPA Members*

<https://forms.gle/JVvxQf7KAVcNjYH46>

**Successful applicants will be notified by email*

Registration Fees: FREE

Peripheral Magnetic Stimulation: Principles & Therapeutic Applications

HKPA is delighted to co-organize with **Healthlink Holdings Ltd.** and **Medical Revolution** to organize a **FREE** online course (Sponsored Event) about Principles and Therapeutic Applications in **Peripheral Magnetic Stimulation**. With high versatility, the technique promotes clinical efficiency by promoting **tissue regeneration**, induce **functional improvement** and **pain management**.

Speaker:

Alberto Sánchez Sierra

PhD, Physiotherapist, Researcher, and University Professor
